

Additional Training – Beyond the Basics

Narrative1 is a powerful report-writing platform. But to get the most out of its tools and features, you need to understand how to use it. Our customized training services will show your team how to utilize N1 to its fullest potential.

I. Identify

Every appraisal business is unique - we want to learn about yours. We will work with you to understand how you write appraisals, including the tools and processes you use, your appraisal specialization, and other details specific to your organization. Once we identify your requirements, we will determine how Narrative1 can make the work you're doing easier.

II. Design

Narrative1 is a highly customizable platform that meets diverse appraisal needs. We will design a training program that focuses solely on the features and processes relevant to your business, while introducing you to time-saving N1 tools you might not know exist.

Some popular topics include:

- Introduction to N1-Web
- Introduction to N1 Excel and Word
- Managing Comparable Records
- Creating N1-Word Templates
- Navigating N1 Maps
- Adding Custom Fields
- Managing Jobs and Contacts
- Configuring UDFs
- Using Upload Excel
- Styling Tables
- Customizing Comp Sheets
- Advanced N1 Options

III. Estimate

You will receive a detailed plan that lists all the topics we will cover in the training program, as well as the appraisal function that each topic addresses. We will also provide an estimate of the time it will take to thoroughly teach your team each topic.

Our customized training is offered at *\$125/hr*, broken down into increments of 30 minutes.

IV. Deliver

Training sessions are held via Gotomeeting. This video conferencing software allows our N1 support professionals to demonstrate every feature and process in detail. You will be able to watch – and ask questions - as you discover how to use Narrative1 like a pro.
